Subject: Re: Response Requested_EPA Proposed SIP Actions for FY2018

The Division still has questions regarding approval of the ozone attainment demonstration submitted in May 2017 as part of the moderate area reclassification SIP. I appreciate your 8/15 email stating EPA's position that a potential 179B demonstration would not need to be accompanied by a SIP revision. Nonetheless, Colorado might still wish to revise the attainment demonstration in conjunction with a potential 179B submittal. When do you anticipate approving the attainment demonstration?

Good Morning,

It is that time of year for us to plan for which SIP actions we will complete in FY2018, so our SIP Management Plans can be in place by October 1, 2017. Attached are the Colorado SIP actions we are proposing to complete in FY2018. Please take a look at the list and let me know if have any changes or if you agree to our proposed SIP actions. Please send me your responses by COB Wednesday, August 30th. If you'd like to discuss this over the phone, let me know and I'll be happy to set something up.

Thank you.
